STYLES PRE-FINISHED BALUSTERS

Euro Architectural Components (EAC) is a division of Euro Ornamental Forgings Inc. Our continued growth as Canada's largest distributor of architectural components for the railing and fence industries has allowed us to maintain the highest quality of service while bringing our valued customers the latest product lines. EAC is thrilled to announce exciting additions to STYLES, our already popular line of pre-finished balusters. Along with our existing collection of solid and tubular balusters available in Pin Top, Drilled & Tapped, and Stainless Steel, we have introduced a new line of modern design balusters, increased the design selections of our tubular and stainless lines, and added more accessories to complement our balusters. EAC is also pleased to offer various installation methods to facilitate our customers. Refer to page iv for the available options.

Samples of finishes are shown on page ii, consisting of 7 STANDARD finishes. These include POWDER COATED FINISHES: Textured Black, Satin Black, Pewter, Gunmetal Pewter; ELECTRO PLATED FINISHES: Brushed Chrome, Brushed Nickel; and STAINLESS STEEL. Other colours are available as SPECIALTY and CUSTOM finishes. Additional custom finishes are available upon request. Contact us to inquire.

FACTS AT A GLANCE

- Pre-finished
- Ready-to-install
- High quality products
- Affordable pricing
- Individually wrapped
- Custom finishes & designs available as special orders
- Most designs also available in mill finish (not powder coated)
- Visit our website for our extensive selection of balusters and other architectural components

www.euroeac.com

PRE-FINISHED
BALUSTERS

3RD EDITION

STANDARD FINISHES

For our Powder Coated, Electro Plated, and Stainless Steel balusters.

SPECIALTY FINISHES

Contact us for availability.

CUSTOM POWDER COATED FINISHES

Special order only.

CUSTOM ELECTRO PLATED FINISHES

Special order only.

These two plated finishes come with a satin clear coat.

For additional custom finishes, contact us to inquire. Charges are applicable. COLOURS ON THIS PAGE MAY NOT BE EXACTLY AS SHOWN.

INSTALLATION METHODS

1. PIN TOP SYSTEM

This system consists of a round pin at the top of the baluster. For our Pin Top balusters, refer to pages 1-8.

2. DRILLED & TAPPED SYSTEM

This system consists of a threaded hole at the top of the baluster, available in both stairway and landing applications. For our Drilled & Tapped balusters, refer to pages 17, 19-22, and 27-30.

3. EPL SYSTEM

This system consists of a base plate that is welded to the bottom of the baluster accompanied by a cover shoe. For our "EPL" balusters, refer to page 9. The "PSEPL" base plates and "PSEPCS" cover shoe can be found in Accessories on page 50. We also offer a welded base plate version of Stainless Steel balusters as shown on page 42.

4. EZ SYSTEM

This system consists of our "EZ" decorative shoes, available in fixed and swivel form, for easy installation for both stairways and landings. We offer this system as a custom installation method. Contact us to inquire. The "EZ" shoes can be found in Accessories on pages 49 and 52.

DISCLAIMER

Please note that product images may not reflect an accurate depiction of the specified colours due to lighting effects during photography and printing outcomes. For exact colours, please contact us for product samples.

BUILDING CODE DISCLAIMER

The information provided is general in nature. It is not intended to be used or relied upon as our recommendation for the use, installation, or maintenance of the product.

We are not responsible for and have no role in manner in which our products are used, installed, or combined in any particular project or environment.

The customer is solely responsible for complying with all applicable building codes and related regulations.

Before commencing a project, the customer should consult with appropriate building departments and/or its professional advisors to ensure compliance with all relevant requirements.
