

# CROBIAL COAT

with MICROBAN®

## CrobialCoat™ Antimicrobial

combines the durable protection of **ProtectaClear®** with **Microban® Antimicrobial** technology.

### Antimicrobial Product Protection

CrobialCoat™ is a durable, clear protective coating that provides protection for most surface rust, salt damage, tarnish, corrosion, and oxidation. CrobialCoat™ has built-in Microban® Antimicrobial technology for an added level of protection against the growth of microbes. It is our most durable and scratch-resistant coating. Ideal for high-touch surfaces where cleanliness matters.

### 24 HOUR TIME LAPSE

On an untreated surface, the bacteria reproduce rapidly. On a Microban® treated surface, the bacteria struggle to survive and are reduced by up to 99.9%.

PART #	DESCRIPTION	COVERAGE
SSEVPROCOAT1	4 oz.	25 sq. ft.
SSEVPROCOAT2	Pint	125 sq. ft.
SSEVPROCOAT3	Quart	250 sq. ft.

**CrobialCoat will actively reduce the growth of bacteria 24/7 and for the expected lifetime of the coating.**

- Combines the tough protection of ProtectaClear® with the antimicrobial product protection of Microban®, keeping coated surfaces 99% cleaner by inhibiting the growth of bacteria and microbes.
- Clear coating specifically designed for protection of metals (even highly polished metals), ceramics, hard plastic, and hardwoods.
- Ideal for use in high-touch environments where cleanliness matters such as schools, hospitals, kitchens, and restrooms in both home and commercial environments.
- Will not wash off - antimicrobial protection remains effective for the life of the coating.
- Surfaces stay cleaner longer, show less fingerprints, and are much easier to maintain with less effort and time.
- Helps prevent odours due to odour-causing bacteria.
- Sealed surfaces clean easily with mild soap and water.
- Contains powerful antioxidants to protect against tarnish, oxidation, and corrosion.
- Remains flexible - will not crack, chip, peel, or discolour.
- Self-levelling and self-annealing - blends to itself, making touch-ups easy. Easily adds an extra layer of antimicrobial protection to surfaces already coated with ProtectaClear® without additional prep.
- One-part coatings - no mixing or waste.
- Suitable for marine and ocean environments - highly salt-resistant.
- Excellent adhesion - even to highly polished metals.

***Not recommended for use on soft plastic, rubber, or silicone***
