

Stainless Steel & Glass Hardware Collection

COMMERCIAL EDITION

Style Design Innovation

Established in 1995, Euro Architectural Components (**EAC**) a division of Richelieu Hardware Canada Ltd. - stands as a **LEADING RAILING SUPPLIER IN CANADA**, distinguished by our unwavering commitment to Style, Design, and Innovation. Catering to the Railing, Fence, and Glass industries, EAC delivers a comprehensive range of products marked by excellence at competitive prices.

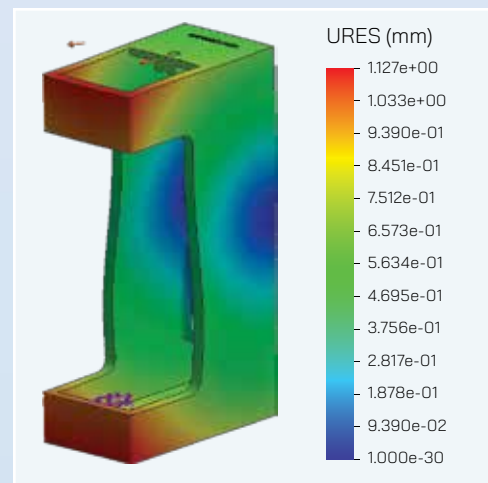

With many years of experience in the architectural industry, EAC is driven by a desire to craft innovative products. Proudly designed in Ontario, our offerings prioritize product development, continuously pioneering innovative designs and enhancing the functionality of our extensive product lines, such as the exclusive Tilt-Lock™ range that continues to reinvent the industry. With a steadfast dedication to quality assurance, EAC ensures each product meets the highest standards of craftsmanship and durability, thanks to our in-house team of engineers.

Simplicity, quality, and timeless design are the key features that EAC's engineering team strives for during product development, utilizing the latest state-of-the-art CAD/CAE programs and advanced equipment such as 3D printers. Our goal is to meticulously develop and innovate every product, ensuring it meets or exceeds standard strength requirements while carefully considering aesthetics and ease of installation. EAC's in-house testing and certification procedures ensure new products comply with national and provincial building codes at every stage of development.

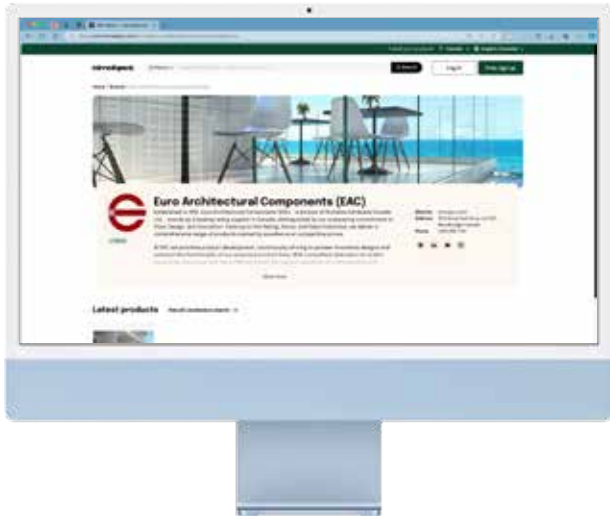

EAC proudly provides comprehensive technical and engineering documentation, including BIM files, Auto CAD blocks, and CSI 3-part specifications, for all our commercial-grade systems. You can conveniently access these resources either directly through our website euroeac.com or via BIMOBJECTS, ensuring effortless accessibility.

For technical questions, details about custom product development, or inquiries about sourcing your exclusive design, please contact

Base Shoes

Ready-to-Install EAC Adjustable Base Shoes with exclusive Tilt-Lock™ Technology are available in 6 models: M2, M3, M4, M5, M6L, and M6Y, accommodating glass sizes from 12-26.52mm.

TILT-LOCK™ Technology allows for a 2° front and back tilt of the glass within the shoe, giving you faster and easier installation with exact alignment every time. This is all achievable from one side, making your projects more efficient.

EAC Adjustable Base Shoes with TILT-LOCK™ Technology are ready-to-install with pre-drilled holes and fully concealed components, offering a clean, finished, and perfectly aligned look. Additional accessories are available.

Specifications

Base Shoe Material: Alkaline Anodized Aluminum 6063-T6.

Aluminum Cladding: Satin Anodized Aluminum 6463-T5 with attached Gaskets and matching end caps.

Stainless Steel Cladding: Stainless Steel 316L in Satin finish and small Aluminum Clip-on Channel with attached Gaskets and matching End Caps.

Features

Engineered for the National Building Code of Canada.

Patented in Canada, the U.S., The U.K., Europe, Australia, New Zealand, and China.

Standoffs

EAC Adjustable/Lockable Glass Standoffs with TILT-LOCK™ Technology

EAC Adjustable Glass Standoffs with exclusive **TILT-LOCK™ Technology** allow easy and precise vertical alignment of glass panels. After the glass panel is set in place, it can be vertically aligned from the front using the **EAC Adjustable Standoff Tool** by tightening or loosening the telescoping portion of the standoff.

EAC Adjustable Glass Standoffs with exclusive **TILT-LOCK™ Technology** are available in 1 1/2" and 2" diameters in various lengths. All sizes are available in **Satin (S)**, with some sizes also available in **Powder Coated Satin Black (B)**, **PVD Brushed Graphite Black (GB)**, and **PVD Brushed Gold (G)** finishes. These standoffs feature an internal locking mechanism with a clean design that conceals the threads in the spacer.

- **NEW** increased range of glass sizes from 3/8" - 7/8", suitable for commercial and residential projects.
- **Locking system** secures standoff in adjusted position, preventing misalignment once the cap is assembled or disassembled.
- **Adjustability** enables a tilt range of +/-3° for glass railings, while our T3 slotted model's slot hole offers both vertical and horizontal adjustment, allowing for complete 3D adjustability.
- **Duplex 2205** Ultra Marine Grade Stainless Steel, solid material.
- **Designed by EAC.** Proudly designed in Ontario and fully engineered for the National Building Code of Canada.
- Cap and threaded rod come as one cast piece for superior strength.
- **Patented in Canada (313 8408) and the U.S. (118 41043).**

Standard Glass Standoffs

EAC's popular **Standard** Glass Standoffs are made of high-quality 316 and 304 Grade Stainless Steel and are available in Round or Square to suit your design needs.

- Includes imperial thread and is available in 3 finishes: **Satin**, **PVD Brushed Graphite Black**, and **SS304 Powder Coated Satin Black**.
- The spacer design has a short lip to provide a smooth surface for the glass to be held in place for installation.
- Imperial fastening options are available. For threaded rods and hanger bolts, use the same thread size as the spacer.

Adjustable Standoff Tool

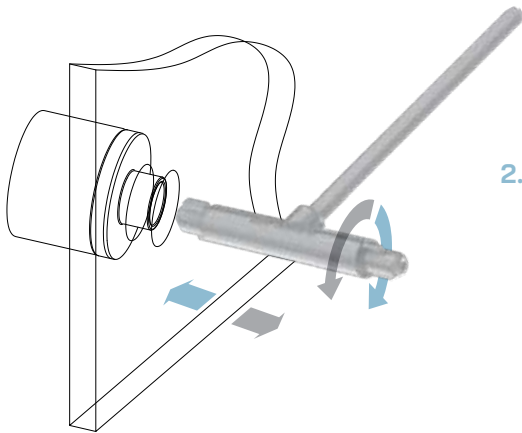

SSJT1 - Required for T3 Slotted Standoffs

Designed by **EAC**, this tool facilitates the adjustment of **EAC Adjustable Glass Standoffs**. The two rounded ends are specifically made for adjusting **1 1/2"** and **2"** diameters, respectively. The Allen key is used to lock and secure the standoffs in place. Sold separately.

3D Adjustability (T3 models only)

1. Adjust horizontally, side to side, and vertically, up and down.

2. Adjust forward or backward for a $\pm 3^\circ$ tilt.

3. Lock into place. This tool can also be used to lock our T3T Tapped model.

T3T-LOCK™
Adjustable Railing Technology

T3T Lockable Tapped Round

Size Available
1 1/2" Diameter

EAC T3T Lockable Tapped Round Standoffs are the fastest and easiest to install. They use a tapped fastening method for quick installation and come in a variety of finishes to match our T3 Standoff line.

T3 Lockable Slotted Round

Sizes Available
1 1/2" Diameter
2" Diameter

EAC T3 Lockable Slotted Round Standoffs are highly versatile, featuring 3D adjustability. This allows you to adjust the glass panel horizontally, vertically, and $\pm 3^\circ$ forward/backward. This flexibility ensures precise alignment and a flawless installation of frameless glass railings, making it easier to achieve perfect results on-site.

T3 Lockable Slotted Square

Size Available
1 1/2" x 1 1/2"

EAC T3 Lockable Slotted Square Standoffs include all of the same features as our Round T3 Slotted model, packaged in a beautiful square design.

Standard Round Standoffs

Sizes Available
1 1/4" Diameter
1 1/2" Diameter
2" Diameter

EAC Standard Standoffs are non-adjustable and serve as our most basic option. Despite their simplicity, they are constructed to EAC's rigorous standards, ensuring exceptional durability and long-lasting performance.

Standard Square Standoffs

Sizes Available
1 1/2" x 1 1/2"

Photo: Alumina

A photograph of a modern building's exterior featuring a glass canopy system. The canopy consists of multiple horizontal metal beams supported by vertical posts, with glass panels attached to the beams. The building has large glass windows and a tiled walkway. The image is overlaid with a semi-transparent dark blue band containing the text.

Glass Canopy System

EAC Heavy-Duty Spider Fittings are attached to a structure to secure glass panels to form a glass canopy or awning system, a glass post railing system, and a structural glass facade or glass wall partition.

Spider fittings are made by solid cast stainless steel, engineered for interior and exterior applications.

Heavy-Duty Spiders

- Available configurations: 1-arm, 2-arm, 3-arm, and 4-arm.
- M16x2.0 tapped holes for fastening to the structure.
- Provides an overall offset of 70mm [2 3/4"].
- Material: Duplex 2205 stainless steel in satin finish.

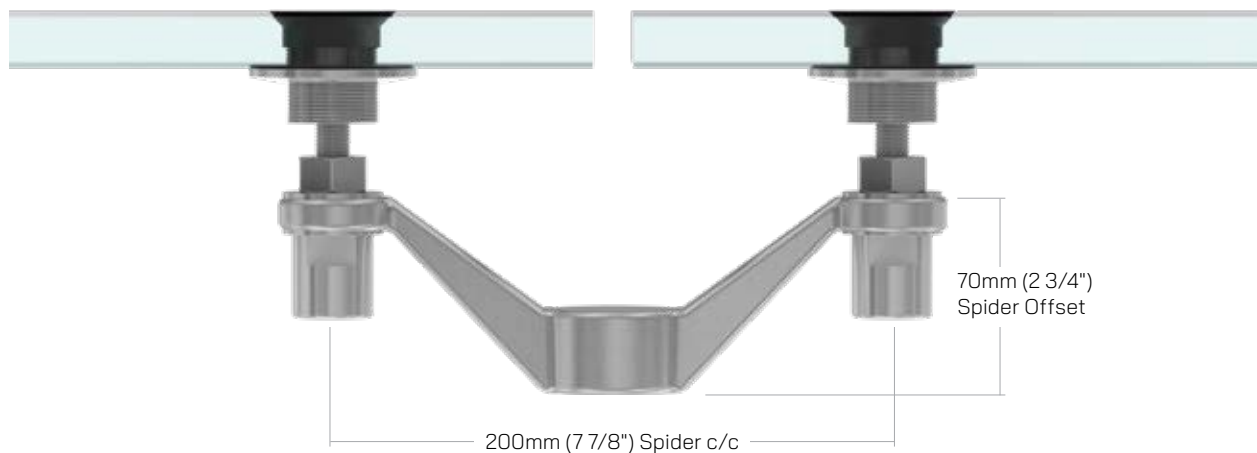

Heavy-Duty Glass Connectors

- Available connector types: Fixed connector and swivel connector.
- Mounting types: Cap mount and flush mount.
- Material: Stainless steel 316 in satin finish.
- M14 connector size.

Heavy-Duty Spider with Glass Connector Assembled Dimensions

Glass Railing Tops

EAC Glass Top Rails are the perfect finishing touch for your glass railings. Designed with both aesthetics and functionality in mind, these sleek rails not only enhance the visual appeal of your glass railings but also provide added durability and strength. Crafted to perfection, EAC Glass Top Rails feature a smooth surface that offers a comfortable grip for any hand.
